## Public Open Forum

1. Mark Donald & Chris Hughes from H2land presented outline planning application 28/1560/15/O for a proposed housing development for part of Allocated Site K4 in Derby Road. The salient points were:

- The application had taken stock of feedback received at a public exhibition held at the Market Hall on 3 March 2015 to revise their initial proposals and provide a lower visual impact on Buttville House and dwellings to the rear of the site in Waterside Park. In particular, roof lines had been scaled down and Eco housing had been adopted.
- Flood concerns had been addressed via a Flood Risk Assessment & Drainage Strategy which identified that SUDS techniques would be utilised for storm water runoff.
- H2land had discussed with Devon County Council the authority's position regarding highways matters (consultation reply dated 28 July 2015 reported a Recommendation for Refusal because adequate information had not been supplied that the proposal was acceptable). DCC was content that a solution to identified problems could be addressed by the applicant and that 3 conditions proposed by the authority could be met.

2. Colin Sutton, Raymond Hayes, David Kirk, Pat Janes, David Taylor and Sally Milburn made comments regarding outline planning application 28/1560/15/O.

The salient points were:

- Within the documentation there were conflicting statements regarding risk of landslip.
- Concerns that the land area may be unstable; walls may be required at the rear of Waterside Park properties to prevent slippage.
- Some trees had not been identified on the plans.
- Several concerns from landowner of Buttville House; an adjacent listed building.
- Waterside Park was made up of bungalows in order to reduce the visual impact upon the town however, the proposed development identified 3 storey dwellings.
- Proposed dwellings would affect the privacy of nearby housing in Waterside Park.
- Concerns raised regarding safeguarding of Public Footpath No.6 which bisected the site.

3. Members posed several questions to H2land representatives who responded:

- Investigations had not discovered any problems with slippage a report referred to 'low risk'.
- The ground was made up of shillet/shale.
- No boundary hedging would be removed and a landscaping plan would be progressed as a Reserved matter.
- The AONB had not been mentioned within the application as the development did not constitute a major development.
