I am a resident of Loddiswell just north of Kingsbridge, but my wife and I love Kingsbridge for its shopping, waterside, leisure and health facilities, local businesses, award winning Kingsbridge in Bloom work (formal and wild) and, not least, its people!

I am by background a mathematician, town planner, economic development officer, gardener, DIY-er, and Park Run regular, with children and grandchildren and concerns about Climate and Nature (so working also with Kingsbridge Climate Action and Friends of Salcombe Kingsbridge Estuary).

I am therefore keen to do what I can to help Kingsbridge to continue to be the great town it is while doing its bit for Climate and Nature for its own good and that of the wider world!
