I was born and educated in Kingsbridge. I studied History and Politics at the University of Exeter and spent three years working for Lloyds of London as a Marine Cargo broker. I returned to Kingsbridge, married a local farmer's son, Richard Balkwill, veterinary surgeon, and together we set up Selworthy Veterinary Group in 1989. I have two children, Emily, who graduated from Bristol Vet School and George who studied Electrical and Electronic Engineering at the University of Bath.

I am proud to be part of the team who worked to regenerate the parks and green spaces in Kingsbridge, a founder of Kingsbridge in Bloom and am keen to protect and record our heritage for future generations as well as to represent the needs of a small business in this wonderful market town.
