Born in Yorkshire in 1960, I chose to move to Kingsbridge in 1994 to set up an IT supply and service business supporting Devon and Cornwall. Partly because of family ties but mostly because I just loved Kingsbridge.

I became involved with the Chamber of Commerce and the original Music Festival very early on and latterly revamped the festival into the “Kingsbridge Food & Music Festival” in 2012.

I became a Director of the Information Centre and learned that the little train along the eastern side of the embankment was missed by all, so in 2015 I started a project to return it and formed the Kingsbridge and District Light Railway with the first train up and running in 2017.

I have always had the ability to find solutions to problems and hope this can help be of service to the Kingsbridge Community.
